EXPERIENCE

Pentagon Studio

Front End Developer

Bangalore

September 2023 - present

Interlynk

- Designed and implemented a new UI, adding features across multiple components to enhance user engagement and functionality.
- Refactored the entire codebase to eliminate unnecessary use of the refetch function, streamlining data management from GraphQL.
- Created several custom hooks to manage pagination, data fetching, and search functionality for dropdowns, improving code reusability and organization.

BullBear Alpha

- Developed frontend architecture using Next.js, TypeScript, Tailwind CSS, and GraphQL API.
- Developed custom table components, search dropdowns among other key features.

Dendrow Web

- Developed a UI feature that enabled users to upload images, integrated with an AI model to analyze and return specific data for validation and further processing.
- Implemented GraphQL mutations for several CRUD operations.

Concentrix

Senior Quality Evaluator

Bangalore

October 2018 - present

- Responsible for maintaining and regulating Quality standards for a team of 20 to 30 members. Acted as a liaison between the quality assurance team and client stakeholders
