EXPERIENCE

Pentagon Studio

Front End Developer

Bangalore

September 2023 - present

- Independently developed and implemented the entire frontend architecture for an ongoing project, **utilizing Next.js, TypeScript, Tailwind CSS, and GraphQL API.**
- Showcased expertise in frontend development by translating project requirements into a fully functional and visually appealing user interface, featuring a custom-designed search bar with advanced navigation capabilities. Seamlessly integrated GraphQL mutation queries to facilitate user interactions, allowing for efficient data submission and retrieval.
- Successfully deployed the project to production, showcasing expertise in web development and ensuring seamless user experiences.
- Prepared to showcase the project codebase and website during interviews to provide tangible evidence of skills and accomplishments.

Founder's GitHub Profile

GitHub

Concentrix
